

## Hole.io Clone

### I. Introduction

Hole.io Clone is an imitation of the game “Hole.io” which only implements its core gameplay mechanics. In this game, the player controls a hole to earn as many points as possible by making objects fall through it. Each time the player earns points, the hole also grows bigger which allows the player to consume bigger objects. The game ends once the time reaches 0.

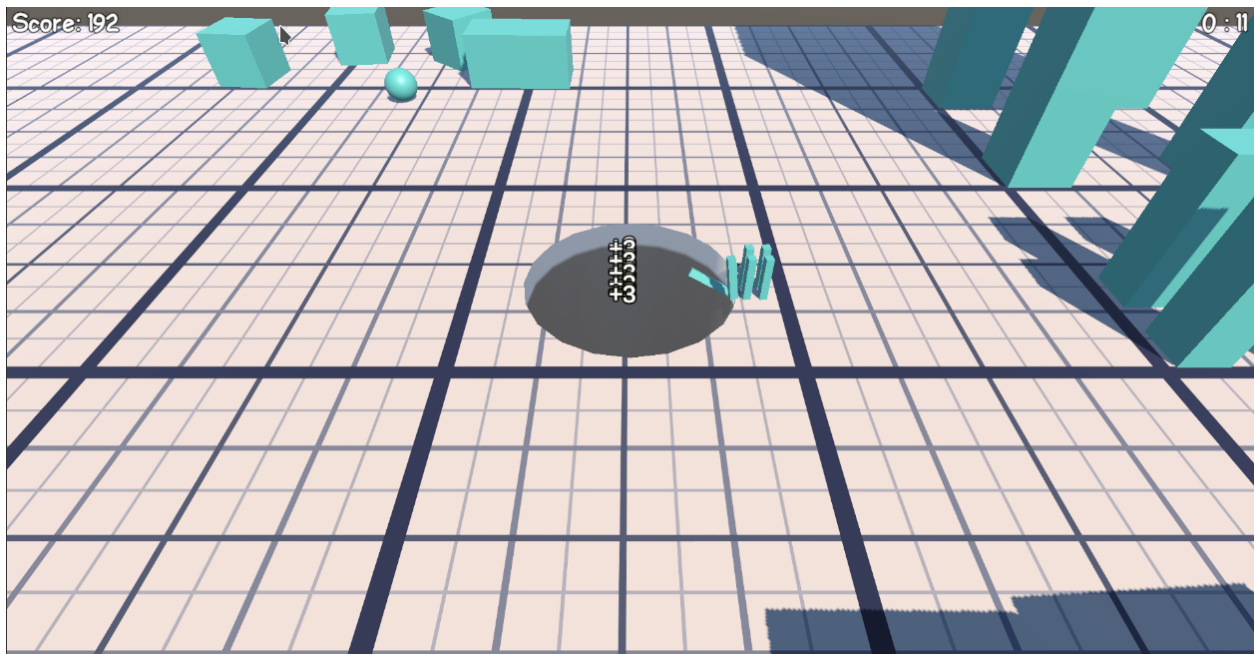

### II. Features

- Score tracker and timer
- Simple UI for restarting game
- Score animation
- Sound effect on score

### III. Controls:

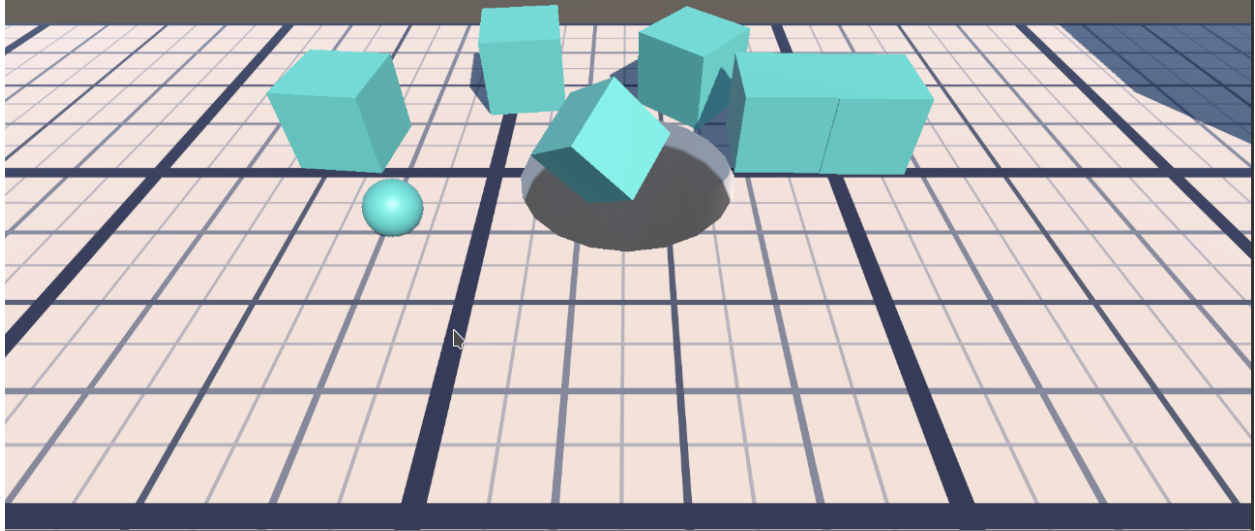

- **WASD** or directional keys to move hole
